Applied AI Student | Technology Operations Leader | Aspiring AI Software Engineer

PROFESSIONAL SUMMARY

Applied Artificial Intelligence undergraduate and technology retail manager transitioning into software engineering and AI. Building foundational knowledge through Miami Dade College coursework and the Google Cybersecurity Professional Certificate. Comfortable learning technical tools with documentation, guided examples, and structured practice; strong in customer communication, troubleshooting intake, team leadership, and operations.

TECHNICAL LEARNING & EXPOSURE

Currently practicing: Python fundamentals, scripting concepts, functions, regular expressions, file I/O, debugging basics, algorithms, and data structures.

Coursework exposure: Linux command line, Unix shell, SQL, relational databases, networking fundamentals, TCP/IP, VPNs, firewalls, SIEM/Splunk concepts, IDS/IPS, risk management, and incident response.

Practical technology experience: mobile device support, iOS/Android setup questions, customer troubleshooting, account/device issue discovery, inventory systems, Excel tracking, and CNC/thermofoil machine operation.

Professional strengths: bilingual communication, needs analysis, team coaching, documentation habits, customer follow-up, and fast learning in technology-focused environments.

EDUCATION & CERTIFICATIONS

Miami Dade College - Bachelor of Science in Applied Artificial Intelligence, In Progress

Google Cybersecurity Professional Certificate - Coursera/Google, Issued Jan 2025 | Credential ID: L1C473ZFU50D

Completed guided coursework covering cybersecurity foundations, networking, Linux, SQL, SIEM/IDS concepts, incident response, threats/vulnerabilities, and beginner Python automation for security tasks.

RELEVANT GUIDED COURSEWORK

Google Cybersecurity courses completed: Foundations of Cybersecurity; Manage Security Risks; Networks and Network Security; Linux and SQL; Assets, Threats, and Vulnerabilities; Detection and Response; Automate Cybersecurity Tasks with Python.

Learning focus: Python problem solving, software engineering fundamentals, AI concepts, and turning business/customer problems into simple technical workflows.

PROFESSIONAL EXPERIENCE

Retail Store Manager | GIANT COMMUNICATIONS LLC, Metro by T-Mobile Authorized Retailer - Davie, FL | Jul 2024 - Present

- Lead daily operations for a mobile technology retail store, balancing customer service, sales performance, inventory accuracy, compliance, and team execution.
- Help customers understand phones, plans, device features, account options, and basic technical issues in clear, non-technical language.
- Coach team members on product knowledge, customer discovery questions, needs-based recommendations, and daily performance goals.
- Manage inventory controls, loss prevention habits, cost awareness, and customer experience metrics.

Retail Store Manager | Cellular Touch Wireless, Inc. - Doral, FL | Jan 2024 - Jun 2024

- Supervised a 3-person team, daily workflow, customer service standards, cash handling, inventory, and sales execution.
- Listened to customer problems, identified account/device/service needs, and escalated or resolved issues using available systems and procedures.
- Improved team consistency through coaching, follow-up, goal tracking, and clear expectations.

Retail Sales Representative | Cellular Touch Wireless, Inc. - Florida | Jul 2023 - Dec 2023

- Met or exceeded monthly sales goals by matching customers with phones, plans, accessories, and service options based on budget and usage needs.
- Built trust by explaining device features, troubleshooting common questions, and following up after purchases.

Manager | Design and Cabinets - Hialeah, FL | Jan 2021 - Jul 2023

- Managed order intake, production coordination, pricing estimates, client communication, and work assignment for multiple team members.
- Operated CNC and thermofoil machines, checked quality, tracked inventory, and supported practical production troubleshooting.
- Maintained Excel spreadsheets for orders, inventory, and production status, building habits around tracking and accuracy.
